## Town Council's Inaugural.

The Town Council held its inaugural meeting for the year 1932 on Friday evening last, in the Council chamber.

Among the other business discussed was a motion, which carried unanimously, that all servants, clerks and employees of the Town have their wages, salaries or stipends reduced substantially. Another proviso was discussed, calling for the strictest economy on the part of the Town's servants, employees and officials.

A change has been made in the personnel of some of the committees, and also in the makeup of the board of health, in the latter case by the appointment thereto of Mr Hy Oppertshauser Jr.

The matter of making a change in the sanitary arrangements of the town was brought up and discussed; and this will receive further consideration.

The new Fire Bylaw is to be enforced, in all its requirements, as the insurance companies are said to be calling for a closer check up on all rubbish and ashes disposal.

Following are the members of the Council's committees for the ensuing municipal year with the Mayor 'an ex officio member' of each:

Building and Parks — Larson and Hardwick.

Roads and Public Works — Zucht and Zilliox.

Board of Health — Messrs J F Clarke, H Oppertshauser Jr., and M O H.

Fire and Light — Michael and Wudel.

The 1932 Model Chevrolet Arrives in Stony Plain.

A carload of the new 1932 Model Chevrolet arrived last Friday at Sommerfield and Mayer's Service Garage. Included in the lot is a Chevrolet de luxe Sedan; and to say that this model is a wonder is putting it in very mild terms. Besides being radically changed in body lines, the car's 6 cylinder engine produces 5 more h.p., and the car is equipped with everything that the highest priced vehicle on the market has, including combined free wheeling and synchro mesh transmission; down draft carburetor, larger tires, longer springs, bigger seats, and—but why attempt to enumerate all the new points on the Chevrolet? Drop into the Service Garage and look the new cars over; see how, by moving your hand half an inch, you change from free wheeling to conventional gears; note the heavy materials used in construction and the many other points. Sommerfield and Mayer and their staff will be eager to show off the new car, whether you are a prospective customer or not.

Auction Sale at Zucht Barn, Stony Plain, on Saturday, March 5th.

The Imperial Economic Conference

The outstanding event listed on the Canadian national calendar for 1932 is the Imperial Economic Conference, which will open at Ottawa on July 15. The deliberations of this conference, the decisions it may reach or fail to reach, yes, even the spirit manifested within the conference, will have far-reaching effects not only upon Canada and the British nations of the world, but upon all nations.

Because this is true, the people of Canada will follow the proceedings of the conference with an interest surpassing in its intensity that usually displayed by them in the sessions of their own parliament. It is, in a sense, a parliament of the Empire that will be in session, and while its conclusions will have to be confirmed and ratified later by each individual parliament in Great Britain and the Dominions, it is safe to say that once the conference itself has reached unanimity, its decisions will be accepted by all.

On the other hand, should the conference fail in its avowed object, should it prove as abortive as was the London conference of 1930, the outcome may possibly be very disastrous; in fact, in such an event, it would have been better if there had been no conference. British people everywhere entertained high hopes of the conference of 1930 in advance of its sittings, and their disappointment over its almost complete failure was correspondingly great, their only consolation being the decision reached to meet again and make another try for success.

All political parties in Canada are sincerely desirous that the Ottawa conference will succeed where the London conference failed. We believe the same can be said of all the parties in Great Britain and the other Dominions. If the United will succeed in persuading it, if it becomes intensified as the opening date of the conference approaches, if the determination of the masses of the people that the conference shall succeed is manifested everywhere, then success will be achieved.

That such a feeling and desire now animates the people of Western Canada is indicated by the proposal made in the Saskatchewan Legislature that all parties in that Assembly should unite in framing and unanimously adopting a resolution setting forth the views of their people as to the policies which Canada should present to the conference, thus, so far as Saskatchewan is concerned, eliminating all partisan contentions. The suggestion goes even further, namely, that all the other Western Provincial Legislatures should follow the same course. In a word, the suggestion is that so far as the Western Provinces of Canada are concerned they should, in advance of the conference, reach common ground in regard to matters of policy in the sphere of Empire trade, as the interests of the West may be affected thereby, and acquaint the Ottawa Government of its conclusions.

Great Britain is to be represented in the conference by a new National Government representative of Conservatives, Liberals, and a section of Labor; Australia will be represented by a new Government representative of a combination of political groups. It is well, therefore, that the national viewpoint of Canada, as represented by political groups, should thus be ascertained and presented to the Canadian Government.

Admittedly the difficulties to be overcome in the problems to be solved, are manifold and great. The national interests of each component part of the Empire have to be recognized, while the combined interests of all are being worked out. There must, therefore, be a willingness to give and take, to compromise, to reach common grounds of understanding, rather than to adopt inflexible attitudes. Fortunately for the ultimate success of the conference this fact appears to be more generally recognized and accepted than heretofore.

It is fortunate, too, that in manufacturing circles in Eastern Canada there is everywhere in evidence a willingness to go some way at least in the direction of more encouragement for the sale of British-made goods in Canada in return for preferences in the Old Country markets for those products which constitute the great bulk of Canada's export trade. Taken all in all the omens appear to be favorable to a successful outcome of the conference's deliberations.

It is also well that the move for unanimity in the matter of Canadian policy in the conference should originate in these Western Provinces. No part of Canada stands to gain more, or to lose more, than does the West. For example, it is universally recognized that the success of the Hudson Bay route depends upon the development of a large import trade from Britain through the port of Churchill. An absence of such import trade means that the export of grain and other Western products will be strictly limited because a one-way rail and steamship traffic can never succeed. It is economically impossible, too expensive, because without two-way traffic vessels put on the route, rated a boat railway and such ships as do operate will, of necessity, be too high to insure success.

This is but one aspect of the subject, small, perhaps, in relation to the whole subject of Empire trade, but very vital nevertheless to Western Canada. It is because of just such aspects, however, that a unity of Canadian opinion is so essential before the conference begins its work. It is to be hoped that such unity will be established and find expression around the conference table.

Having walls composed almost completely of glass, a New York architect has designed a round school building with a view to saving lighting expense.

A new electrical recording instrument detects errors of one-millionth of an inch.

**Palpitation of the Heart Could Hardly Get Around**

Mr. Charles Storni, B.R. 5, Filton, Ont., writes: "I was troubled with palpitation of the heart; could not sleep, day or night, and was so weak I could hardly get about."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks.

My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c a box

**Fifty Million Gas Masks**

France Will Ensure Every Citizen Against Gas Attacks

Fifty million gas masks have been ordered by the French Government for citizens. It was leased officially.

The masks to be manufactured during the next two years, will be fitted against the deadliest gases developed since the World War. They will insure immunity for ten hours after which the chemical canisters can be changed.

The masks were ordered by the Ministry of the Interior for the protection of the civil population in case of a gas attack. It is intended by the French Government to have enough gas masks on hand to guarantee every citizen protection.

**ACID STOMACH IS DANGEROUS**

Sufferers From Indigestion

**CUT THIS OUT**

"Stomach trouble, dyspepsia, indigestion, etc., can be cured in nine times ten by chrome acid stomach," says Dr. J. H. Goodwin.

Burning hydrochloric acid develops in the stomach an acid state, which acts as irritant and influences the delicate stomach lining and often leads to gastritis.

It is also a good remedy for acid stomach with peptic or artificial ulcer.

# Rings On Douglas Spruce Indicate That Ancient Tree Has Lived For 3,200 Years

Man's intelligence has discovered that various objects, animate and inanimate, reveal in their own bodies records of the ages, but that his own body is not similarly endowed, and when discovered presents evidence of the most disputable nature. Not so with trees. A tree is a self-revelation, as is told in an address appropriately delivered by Professor F. E. Lloyd before a section of the Canadian Pulp and Paper Association at Montreal. The tree speaks the language of botany, and to those conversant with the tongue, discloses its age. The rings on a Douglas spruce on this continent, for instance, prove that it has lived 3,200 years; and probably nothing else that is living and is not vegetable, so similarly indelibly survives for thousands of years.

Prof. Lloyd refers to what has happened in the world since the seedling of that ancient spruce germinated. He sees Abraham leaving Ur of the Chaldees to start his pilgrimage. He sees the Christian religion being founded. The storms that have buffeted that tree in vain have blown on a host of wars, migrations and upheavals. The leaves on it have come, and gone, and come again, endlessly, but dynasties that believed themselves implanted everlasting have been cast down into the dust.

Man, the family of man, has been unable in his body to disclose the story of his endurance. His age has always been problematical, and none agrees who was first or how long the old man might live. He might live a hundred years, he is told by his teeth, but what he now has more often indicates a stage in the dental art. His periodicity has been set by the lowness of his brow, "but" low-brows are claimed by high-brows to be as indicative of man in the present as they were of him in pre-glacial eras.

No such uncertainty beclouds the age of the venerable Douglas spruce. Its birth certificate is in its trunk. Its rings make a weather chart of the centuries. The narrow rings tell the seasons which were short and cool; the wide rings record the years of warmth and sunshine. That old tree tells the story of the weather for three thousand years.

Man's body does not reveal even the weather of the ages, and tells less than do the trees whose pulpy substance is despised for its impermanency and woodiness of intellect. Man's age can only be inferred from the buried cities, and the trinkets he has dug out of their midden at Vancouver. But as remotely of the past as are the utensils picked up from where the cave-woman threw them, they are but of yesterday in the lives of the magnificent old Douglas spruce.—Winnipeg Free Press.

## What He Owes and Owns

It is important, that, the farmer know what he owes and what he owns, and be in a position to present this information in a business-like way to his banker in case a loan is required. The lender is entitled to a true statement of the financial affairs of the man who would borrow from him.

"Good-bye, my boy. Enjoy your holidays and try to return with a bit more sense!"  
"Thank you. Same to you, sir!"—  
Pages Gales, Yverdon.

## Canadian Wheat Flour

### May Launch Campaign To Demonstrate Value For Bread Making

A campaign to demonstrate to the people of Europe the value of Canadian wheat flour for bread making, is under consideration of the department of Trade and Commerce, H. H. Stevens, Minister of that department, told the supply committee of the House of Commons.

The details of the scheme are being worked out and the announcement was perhaps premature as definite plans were lacking. He had been greatly encouraged by similar campaigns carried out in the past and he was of the opinion that advertising might play a leading part in returning to prosperity.

There are many references to the recent campaign to further the interests of Canadian grape growers. The government had contributed financially, and there had been remarkably successful results. A campaign to popularize the Canadian apple abroad and to stimulate interest in Europe in Canadian sea foods and in Canadian cattle, had met with marked success.

More than 120,000 radio receiving sets of three or more tubes each were manufactured in Austria last year, more than five times as many as were made four years ago.

## Many Instruments Of War

### Submarine Not Only Menace To Human Lives

On the eve of the World Disarmament Conference, the Canadian government has made a strong appeal for some cessation in the arming of nations against nation. The sinking of the M-2 in the English Channel raises the total of men lost in peacetime operation of submarines during the last ten years to 613.

Of course, this is only a part of the price paid in human lives for the privilege of preparing for war. The submarine is only one instrument of warfare. In the United States alone fatalities with military airplanes have reached half that figure during the same period. The total for planes in all nations must exceed it. Experiments with poison gases and other weapons have added their quota.

But the prolonged tragedy of submarine disasters has sparked a steady outcry against undersea craft. It is also said that they are a stealthy weapon.

But is an airplane dropping bombs or gases at night upon a civilian population any less futile? It is argued, too, that submarines have no peaceful usefulness. Have ten-inch guns any greater utility?

This is no defense of the submarine. But just at this time when the nations are thinking about putting away some of their weapons, it may be well to recognize that other instruments of human slaughter may be no less hateful in war and useless in peace.—Christian Science Monitor.

France buys more than she sells to China.

## Clever Speaker Turns Back Pages Of Canadian Political History To The Days Of Macdonald

### Farmers Will Benefit

#### Trading In Hogs On The Basis Of Official Grades

The new hog grading regulations put into effect by proclamation in the "Canada Gazette" of January 30 extend the provisions for trading in hogs on the basis of official grades in such a way as entirely to eliminate flat-price trading. Hogs sold from farmer or other producer right down the line to the final packer or processor must be traded in on the basis of official grades. This ensures to the farmer full benefits of the agreement with the packer.

But the prolonged tragedy of submarine disasters has sparked a steady outcry against undersea craft. It is also said that they are a stealthy weapon.

But is an airplane dropping bombs or gases at night upon a civilian population any less futile? It is argued, too, that submarines have no peaceful usefulness. Have ten-inch guns any greater utility?

This is no defense of the submarine.

But just at this time when the nations are thinking about putting away some of their weapons, it may be well to recognize that other instruments of human slaughter may be no less hateful in war and useless in peace.—Christian Science Monitor.

### Vimy Ridge Monument

The Vimy Ridge monument, largest memorial ever erected, will be completed in 1935, Hugh L. Alward, Toronto, son of Walker S. Alward, the sculptor, stated upon his arrival from England. The monument, commemorating the capture of Vimy Ridge in 1917, will be 145 feet high.

Turning back the pages of Canadian political history to the days of Macdonald, Tilley, Tupper and Blake, R. S. White, veteran Conservative member of the House of Commons, recently spoke before the Canadian Club of Ottawa. Mr. White, who sat in the parliamentary press gallery a half century ago and looked down from that vantage point on the political giants of the period, gave it as his considered opinion that the average ability of the House of Commons today is as high as it has ever been. Fifty years from now, he said, people will be talking of the political giants of today, just as we now do of those who trod the political stage in 1882.

Mr. White, who knew politics and statesmen not only as a journalist, but also as a member of the House of Commons, told the Canadian Club that he was "degraded" from the press gallery to a seat on the floor of the House in the year 1882. He represented the Ontario constituency of Cardwell.

At present he represents Mount Royal. Mr. White delighted his listeners with many anecdotes of political figures who have passed into history. Just in passing, he expressed the view that "one of the vices of our House of Commons" is the long speech.

People might agree or disagree with the policies of Sir John A. Macdonald, but all must admit his talents, Mr. White said. Sir John, in his opinion, was "the daddy of them all." The old Conservative leader was not what would be called a good speaker. It was his personal popularity which was his great asset. Mr. White told how Sir John would come back and gossip with the "back benchers" when quiet reigned in the House of Commons.

It had been his pleasure and privilege to know Sir Wilfrid Laurier well. "A charming man and a great orator," he called the Liberal leader. He spoke of Sir Charles Tupper who had "actually foamed at the mouth" in the course of one of his fiery exhortations to the House of Commons. He referred to Sir Leonard Tilley, Hon. A. Mackenzie, Sir John Thompson, Hon. William Patterson, Sir Richard Cartwright and others who stand out from the pages of political history. He quoted Hon. William Patterson as saying once, when dealing with the question of patronage, that "all other things being equal, a Liberal should have the job."

"And," added Mr. White to the amusement of his audience, "all other things were equal, and the Liberal got the job."

Speaking of Hon. Edward Blake, Mr. White said that in power and in respect to pure intellect no other man ever sat in the House of Commons. Sir Richard Cartwright, he said, was frequently very sharp and bitter in parliament. "I almost think he disliked Conservatives," said Mr. White, "and that he regarded them as a different breed of dog altogether."

### A Travelling Dental Parlor

Fully equipped as a surgery and a waiting-room, and carrying a dentist and a nurse, a motor dental surgery car is now visiting the 11,000 children in the ninety schools under the Isle of Ely County Council.

"What are you looking for, miss?" "They told me that an old sea dog was to be found on this pier, but I can't see it anywhere."—Nagels Lustige Welt, Berlin.

## Macdonald College Celebrates

Inset photo: A view of the Macdonald Engineering Building, McGill University.

Inset photo: A view of Macdonald Hall, Guelph, Ontario.

Inset photo: A view of the Macdonald Hall, Guelph, Ontario.

The Twenty Fifth Anniversary of Macdonald College with particular emphasis on Founder's Day, February 10th, focuses attention on the important contributions of the late Sir William C. Macdonald who built, equipped and endowed the entire institution at an expense of more than \$1,000,000.

Founder's Day, which this year marks the 101st Anniversary of the birth of the late Sir William C. Macdonald, the tobacco magnate, Canada's greatest benefactor, once more draws attention to the tremendous scope of his benefactions to McGill University. Macdonald College at St. Anne de Bellevue is affiliated. These benefactions total more than twelve and one-half million dollars, the sum of which was given during life. While the Faculty of Science and of

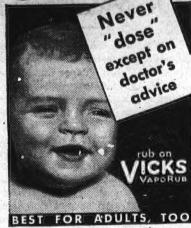

the dentest to Sir William's heirs, the faculty of the McGill University benefited during his life and after. The Faculty of Law received \$232,500. The Conservatory of Music \$150,000. The Faculty of Medicine was bequeathed \$50,000. The McGill Museum Building was purchased at a cost of \$142,000. While the Macdonald Park was purchased at a cost of more than one million dollars and given to the University. Student's Hall, the most famous building at McGill which bears the Macdonald name and those donated by the late tobacco knight, stand

today, as the greatest monument to him.

Macdonald College was founded by the late Sir William in 1907. It was destined to be a college school—one for agriculture and one for household science and one for normal teacher training. The gift included the grand total of \$600,000 and the complete equipment and endowment. The college itself was incorporated with the University of McGill. The Faculty of Agriculture, although the most famous training feature is possibly his best known contribution to life in the Province of Quebec.

Other sections of the country were benefited by the late Sir William's benefactions, the Macdonald Institute and the Macdonald Hall at the Ontario Agricultural College, Guelph, being among the most important.

## WORLD HAPPENINGS BRIEFLY TOLD

Canada's investment in highways is said to total \$900,000,000, covering roads estimated at 350,000 miles in length.

Waterloo bridge is sinking and must be replaced by a new one which will cost \$1,295,000. The present bridge was opened in 1917.

A total of 21,000 persons were naturalized during the fiscal year ended March 31, 1931. Twenty-seven certificates were revoked. Those naturalized were mainly central European.

Furniture and other articles recently seized by the police in Mahatma Gandhi's seminary brought \$133.22, when they were auctioned to help pay taxes on the property.

Winnipeg Miller, 73, pioneer, is dead at Calgary. He attended the ceremony of driving the last spike into the Canadian Pacific Railway line at Craigleachie, B.C., in 1885.

The Citroen-Hardart-Asiatic-Expedition, travelling 8,000 miles across Asia, met temperatures ranging from 120 degrees above zero to 36 degrees below.

Primer Tolmie of British Columbia does not agree with the three reports tabbed at Ottawa stating the Peace River outlet was not feasible at present. He supports building of the outlet.

W. F. Powell and R. M. McLeod, reading of the departure of an expedition to seek treasure on the Coos Is-land, recall a similar unsuccessful expedition they took part in 45 years ago to seek the same treasure.

There will be no change in the French disarmament and reparations policy under the government headed by Andre Tardieu, the new premier told the Chamber of Deputies in his first ministerial declaration.

A bill to link Glacier National Park with Waterton Park across the Canadian Border in an International Peace Park has been reported favorably by the United States House of Representatives public lands committee.

Her Majesty Queen Mary, accompanied by the Duke of York and Prince George, visited the Canadian Industrial section at the British Industrial fair at Olympia, London, England, according to a cable received by the Department of Trade and Commerce.

### Closure Judicial Districts

Four judicial districts of Saskatchewan will not operate this year as no appropriations have been provided for them by the government for the fiscal year 1932-33. They are Gravelbourg, Leader, Maple Creek and Weyburn. In the fiscal year now closing 23 districts operated and the closing of the four for which no appropriation is provided will mean a saving in expenditure of \$30,870.

### Saskatchewan Leads in Mental Hygiene

National Committee Expresses Hope That All Large Hospitals Will Follow Lead Given By Hon. Dr. Munroe

The report of the activities of the Canadian National Committee for Mental Hygiene for the period 1930-31, just issued, makes special complimentary reference to the work being done by Saskatchewan's Minister of Public Health, the Hon. F. D. Munroe, in connection with the establishment of a division of Mental Health in Saskatchewan.

"The progressive Minister of Health," says the report, "is taking a statesmanlike interest in mental hygiene and has created a division of mental health. It will fall to this division to work out policies and programmes in regard to mental institutions, clinics and the application of mental hygiene principles in education, social work, administration of criminal justice, etc. The Minister of Health has also made possible the organization of psychiatric wards in connection with the Regina General Hospital. It is to be hoped that all large general hospitals throughout the country will follow the lead furnished by Regina."

During the period 1930-31 the Canadian National Committee for Mental Hygiene has been active in all parts of Canada in the promotion of mental hygiene progress. The outstanding pieces of work include a survey of the Provinces of Prince Edward Island; organization of a post-graduate centre in psychiatry in Toronto; integration of mental hygiene into the school system of Montreal; activities leading to the enlargement of the mental hospital at Brandon, Manitoba; arrangement in collaboration with the Federal Census Bureau to secure uniform statistics from mental institutions of the country; publication of weekly articles in two hundred newspapers; demonstration of the value of social work in the parole of mental patients in British Columbia; establishment of a Division of Mental Health in connection with the Department of Health of the Province of Saskatchewan; organization of psychiatric wards in connection with the Regina General Hospital; and the publication of a series of important research activities at four leading Canadian universities and the initiating of mental hygiene activities through co-operative efforts between the National Committees of Canada and the United States.

### C. N. R. Branch Lines

\$648,000 To Be Expended On Construction Work This Year

A total of \$648,000 will be expended on branch line construction for the Canadian National Railways this year, that amount being authorized in the 1929-1932 programme, according to a return tabled by R. J. Marion, Minister of Railways, in the House of Commons. A number of the branch lines are completed, but work this year will be confined to five, of which two are in Alberta, one in Saskatchewan, one each in British Columbia and Ontario. The programme follows: Bulwark (Alberta) easterly, \$15,000; Brantford (Ontario) cut-off, \$312,000; Hemaruka-Scapa (Alberta), \$115,000; St. Walburg (Saskatchewan) Bonnyville, \$35,000; Lulu Island (B.C.), \$174,000.

Expenditures in connection with the programme up to December 21, 1931, amounted to \$17,810,769. During the year the sum of \$4,378,050 was spent. The amount authorized in the schedule, plus the customary 15 per cent, totalled \$33,061,350.

A number of the constructions have been discontinued for the time being.

### In Reference To Jests

The Shakespeare play, "Julius Caesar," has been substituted in the public schools of the province for "The Merchant of Venice," as the result of objections raised by Jewish people. Dr. J. T. M. Anderson, Premier and Minister of Education, told the Saskatchewan School Trustees' Association, when he defended the department's policy regarding text books and denied frequent changes.

French producers of dyes supplied about 96 per cent. of the domestic demand last year.

Germany expects an early restoration of an unrestricted rental market.

France now has about 80 daily newspapers and 200 magazines.

### DECIDELY SMART DAY DRESS FOR MATRONS OR ANYONE WHOSE FIGURE NEEDS SLIMMING

You'll love this dress. It is black canton-faille crepe silk.

It has the lines which have been given by expert tailors to become the figure. It has the most modish sleeve flounce and one-sided about its white crepe rever, that provided so much smartness and charm.

Some may like the rever to tone with the dress, which is also very smart and a bit more practical.

It is especially fascinating in soft pink, white or pale blue. Prince crepe silk is attractive in this model with the rever and sleeve nouve of plain crepe in blending tone.

Style No. 672 is designed for sizes 34, 36, 38, 40, 42, 44, 46, 48. Price \$6.36 requires 3 1/2 yards of 39-inch material with 1/2 yard of 35-inch contrasting.

Price of pattern 25 cents in stamp or coin (coin is preferred). Wrap coin carefully.

### SUNDAY SCHOOL LESSON

MARCH 6

JESUS WASHES HIS DISCIPLES' FEET

Golden Text: "The Son of Man came not to be ministered unto, but to minister, and to give His life a ransom for many."—Matthew 20:28.

Lesson: John 13:1-15.

Devotional Reading: Isaiah 52:13 to 53:6.

Explanations and Comments

Supreme Love and Supreme Treachery, verses 1 and 2.—Before partaking of the Feast of the Passover, Jesus was fully aware of the destiny of His people. His love for the disciples' feet was a last illustration of His uttermost love for His own—His disciples with whom He had lived to do His Master's will. He had lived to do His Master's will, and by side with His Lord's great love for them, the Evangelist places the treachery of Judas Iscariot, who at the very last made up his mind to betray Jesus.

Supreme Power and Loveliest Service, verses 3-5.—In later years Peter wrote that admonition: "All of you gird yourselves with humility and lowliness of mind, and not boasting of the girded towel about his Lord and the lowly service performed on that last night when Jesus accompanied with His twelve apostles to the garden of Gethsemane." Power, mission and destiny did not deter Jesus from this humblest of tasks which He set Himself; rather did it move him to undertake it. He arose from the table, took a wash into a basin, and began to wash the disciples' feet.

"No impulse is too splendid for the simple tasks; no task is too simple for the one who is too splendid for the simple tasks."—Philippe Brooks.

Blundering Love, verses 6-9.—"Dost Thou want to wash my feet?" Peter exclaimed. "I have washed thy feet." In the Greek the words "sum mou"—that of me—are in emphatic contrast at the beginning of the sentence. "What I do thou knowest not now; but thou shall understand hereafter." Christ's answer, which is partly explained in verses 12-17.

"Thou shalt never wash my feet," Peter said. "I have washed thy feet."—Reciting Matthew 16:22. "I am the old standard mixture of self-conceit and self-distrust: the self-conceit of old, which under the shadow of Hermon had called upon me to be the first to see when He had said, 'That is he from Thee, the Lord; this shall never be unto Thee'; the self-distrust which of old, in the boat on the sea of Galilee, had caused me to know that I had a great cry wringing from my yearning heart. 'Depart from me, for I am a sinful man, O Lord!'"—F. W. Farar.

I love Simon! I have made pretty much the same blunders as he has done, but my public life has not been given to them.—G. W. Bush.

"I was wrong, not thou has not part with Me," no man in my fellowship and kingdom, was Jesus' answer. Peter did not fully understand, but he was wholly loyal to his Lord. His heart was full of feeling when he completed when he cried, "Lord, not my feet only, but also, my hands and my head."

### Gasoline Tax

Net Revenue Shown For Saskatchewan For Year 1931

The Saskatchewan gasoline tax resulted in a net revenue of \$1,254,068.20 being received into the provincial treasury in 1931, figures made public in the legislature disclosed.

The total amount collected through the tax was \$2,458,675.29, of which \$1,148,528.59 was rebated in addition to \$60,068.50 paid out by way of commodity tax.

In addition, it was stated by Hon. A. C. East, Minister of Highways, that 91,276 automobile licenses were issued in 1931, 15,678 licenses for trucks, 41 for public vehicles, 110 for freight vehicles, 306 for motorcycles, 570 for livery vehicles, 2 for pedal bicycles with motor attachments and 3,107 for trailers.

### A Good Investment

#### BIG BUSINESS IN ORIENT DEVELOPED

From Few Gifts

About a quarter of a century ago the Standard Oil Co. gave away without cost a large number of kerosene oil lamps and stoves in China and throughout the Orient. This was designed to increase the demand for kerosene oil. It was a good investment. Today tankships operated by the Standard Oil and the Shell Oil Companies carry many millions of gallons of kerosene to Orient countries annually. While electric lighting is common in port towns, throughout the Orient the interior cities and towns as well as the rural districts still employ kerosene oil as their principal means of lighting.

John Y. McCarter, Vancouver, is first vice-president. Members of the council for western provinces are:

### Government and Municipal Co-Operation

Necessity Of Economy In Order To Safeguard Solvency Of Municipalities

Hon. Howard McConnell, Provincial Minister of Municipal Affairs for Saskatchewan, has addressed a letter over his personal signature to the various municipalities pointing out the necessity of close co-operation between Saskatchewan Government and the municipalities. He points out the paramount importance of safe guarding the solvency of the municipalities, by pursuing a course of the most rigid economy. He gave a tribute to the public spirit of certain municipalities, pointing out that there have been municipalities where tax collections in districts where crops have not been good, have exceeded tax collections in districts where crops have been reasonably good. In some districts which have been dried out the financial statements submitted have given the greatest encouragement. Regret is expressed that, in some municipalities more favored in the way of better crops financial conditions are not what they should be.

The Minister expresses the desirability of the employment of capable secretaries and paying them reasonable returns for the important services rendered. He urges the utmost economy in preparing the budget for the coming year, and suggests that only the most necessary expenditures be undertaken. He asks for a copy of the forthcoming budget with an indication of the proposed savings, and offers the earnest co-operation of the Government, the Minister, and the Department.

### Tuberculosis Affects Indians

Resistance Less Vigorous Among Those Residing In Remote Reserves

Resistance to tuberculosis is less vigorous among the Indian population of Canada residing in the remote reserves than among those in the more populated Indian Affairs reserves. Near white settlements the ravages of this disease can be controlled; and Indians engaged in agricultural pursuits show increasing resistance. The Department of Indian Affairs declares in regard to the latter that "it would not be impossible to practically stamp out tuberculosis on several reserves, and the measures required to this end would not be unduly costly."

Of the Indians in the less accessible reserves, however, the report says that they are not showing "any satisfactory tendency towards increased resistance to tuberculosis, and their location and manner of life makes it difficult, if not impossible, for the department to give them effective aid in this respect."

### Still Some Differences Between the Sexes

There are still some differences between the sexes, despite the desperate efforts to eradicate them all and we never saw a man earnestly endeavoring to ascertain by a prolonged study of the outside of the envelope whom the letter came from, instead of opening it and finding out at once and for sure.

### Farm Implements Exported

Canadian farm implements exported during January were valued at \$120,324, an increase of \$30,300 over December, 1931, the Dominion Bureau of Statistics reported recently. The best purchaser was the United States at \$43,486. Great Britain's purchases totalled \$15,806.

## PLAN TO RAISE LARGE SUM FOR POLITICAL ACTION

Saskatoon, Sask.—Undismayed by financial difficulties and dwindling membership due to the organized farmers of Saskatchewan, their principal officers and members embarked on a determined effort to raise money for the political battle they plan to wage within the next year.

A. J. Macauley, Execca, steadfast proponent of political action, was unanimously re-elected president of the United Farmers of Canada, Saskatchewan section, at their convention here, and J. F. Herman, Rocanville, was re-elected vice-president.

At the same time the delegates to the convention pledged themselves to raise the sum of \$10,000 for the treasury of the association within the next four months and failing that to consider ways and means of disbanding.

With a view to facilitating the enrollment of members the present membership fee of \$5 per year was reduced to \$2 for a family, this to include children under 16 years of age. Individual adult membership fees were placed at \$2 and fees for members between the ages of 16 and 21 at \$1.

Re-election of Mr. Macauley puts the stamp of approval on his work during the past year in organizing the Saskatchewan farmers on a political basis and in attempting to form a working alliance with farm bodies in other provinces as well as with the Labor Party. It was Mr. Macauley, too, who broached the suggestion for amalgamation of the three prairie provinces, Manitoba, Saskatchewan and Alberta, under one government.

The financial difficulties of the farm organization are due in part to the practice of collecting their fees through the wheat pool. Members authorized the wheat pool to deduct the amount of the fee from the second payment on the crop and turn it over to the United Farmers of Canada. Since 1929 the second crop payments have been made by the pool and some \$63,000 in dues is tied in wheat pool requisitions. A resolution was passed calling for the termination of this arrangement at the earliest possible moment.

Many delegates expressed dissatisfaction with the working of the present Saskatchewan Debt Adjustment Act. The convention decided to ask the provincial legislature to amend the act to provide enlargement of the debt adjustment commission to three members with the chairman a trustee in bankruptcy. Another amendment was requested to prevent the launching of any legal proceedings for the recovery of debts without the permission of the commission.

### Heavy Grain Shipments

Over Six Million Bushels For United Kingdom Pass Through Vancouver.

Vancouver, B.C.—During the past two weeks approximately 6,200,000 bushels of grain have been booked for shipment through this port for the United Kingdom and the continent, according to local grain brokers.

During the past week, the weekly report of the Vancouver Merchants' Exchange shows, shipments totalled 1,431,056 bushels, bringing the season's total to 43,430,886 bushels. At this time last year the export was 45,511,070 bushels.

**Chinese Purchase Planes**  
Worcester, Mass.—Harry S. Jue, head of the Worcester Chinese Aid Committee, states Chinese in this country have bought and are shipping to the Chinese for use at Shanghai 75 military aeroplanes. "Chinese leaders" he added, "are now also negotiating with German interests for the purchase of another 100 fighting planes to send home."

### Censor Troop Movements

Tokyo, Japan.—Censorship was invoked again to check the movement of Japanese reinforcements to the Shanghai front. Only meagre accounts of military preparations appeared in a few newspapers.

### Comparison Favors Canada

**Banking System Of Dominion Is Praised By American Official**

Washington, D.C.—Comparison between the banking systems of Canada and the United States to the disadvantage of the latter appears in the report of the treasury appropriation bill.

Comptroller of Currency John W. Pole told a congressional committee there had been 2,290 bank failures in the United States during the calendar year 1931 and none in Canada since 1923.

"It is a sad commentary on our system," he said, "when we realize that with an imaginary line running between Canada and the United States, where the same character of people are and where the same economic conditions prevail, there is this great difference in banking conditions."

"The people on both sides of the border have similar characteristics. They are only separated by an imaginary line, while on one side they have had no bank failures, whatever, on our side there have been hundreds of bank failures."

### May Terminate Trade Agreement With Russia

**British Government Is Urged To Take Immediate Action**

London, England.—The trade and industry committee of the Conservative party decided to urge upon the government immediate steps to terminate the Anglo-Soviet trade agreement.

The committee reached its decision, it said, in a desire to see Great Britain free to take appropriate steps to remedy present unsatisfactory industrial conditions and to give representatives of the United Kingdom greater freedom in their conversations with the Dominions at the Imperial Conference at Ottawa next July.

### Corn From Africa

**Shipment Received In Calgary To Be Used For Poultry Feed**

Calgary, Alberta.—Believed a precedent, a shipment of corn from Africa arrived in Calgary today to be delivered to local feed dealers recently. The shipment came from Vancouver and will be used for poultry feed.

The dealers receiving the corn explained that it was cheaper to purchase African corn at present than the North or South Dakota product which had previously been used by them. The African corn, they declared, was better suited for the purpose, being harder and smaller than the United States variety.

BRITAIN'S EMERGENCY CABINET SITS ALL NIGHT ON WAR SITUATION

News from London, England, states that Britain's Emergency Cabinet Committee sat all night keeping in constant touch with the latest developments in Shanghai. The committee will maintain contact with the situation in China and will be prepared to meet on one hour's notice. This is the first time since the World War that such a Committee has been formed. Above are five of the seven Emergency Cabinet members: Left, top and bottom: Sir John Simon, Foreign Secretary; Lord Halifax, Secretary of War. Centre: Right Hon. Stanley Baldwin, Lord President of the Council. Right, top and bottom: Neville Chamberlain, Chancellor of the Exchequer; and Sir Samuel Hoare, Secretary of State for India.

### SETS NEW RECORD

Sir Malcolm Campbell, British "speed king," who hung up a new world's speed record of 253 miles an hour with his "Bluebird" racing machine on Daytona Beach.

### Boost Churchill Port

**Expect That Twenty Ships Will Be Needed To Take Care Of Cargoes**

Winnipeg, Man.—Churchill, Manitoba's far north port on Hudson Bay, to be opened this summer, will be extensively used during its first open season, Brig.-Gen. R. W. Paterson, president of the On-to-the-Bay Association, predicted. He said possibly 20 ships would be required to take care of cargoes available.

Majority of the ships that will make the journey through Hudson Strait from British and European ports will carry bulk cargoes, Gen. Paterson said, but he believed at least half a dozen would carry package freight.

Arrangements are being made by grain and cattle interests in western Canada to take full advantage of the new route, the On-to-the-Bay president said. Annual meeting of the On-to-the-Bay Association will be held at Moose Jaw, Sask., March 23 and 24.

### Quebec Favors Sweepstakes

Hamilton, Ont.—Representatives of 48 municipalities from all over Ontario condemned sweepstakes as a means of raising money to meet relief expenditure in the province. Prediction that Dominion-wide sweepstakes would soon be a reality was made by Mayor Houde. If Ontario was not prepared to co-operate, Quebec would lead the way, he said, adding, "I'm going to start it in Montreal."

"We did not have one clear day all the way across Canada," said Cross, describing the difficulties of long winter flying.

### Russian Wheat Shortage

**Soviet To Use Thirty-Two Million Bushels For Seed**

Ottawa, Ont.—The Dominion Bureau of Statistics has received a cable from London giving the official text of the Molotov-Stalin decree regarding Soviet grain. It announces that 1,926,000,000 pounds of grain (32,100,000 bushels) will be sent to collective and state farms in the districts for seed and food, the principal areas selected being the lower and middle Volga, Kazakhstan and western Siberia regions.

It is also decreed that the collection of grain for spring sowing on collective farms shall be 5,700,000 metric tons, to be completed in a quarter of a century, drive his 12-cylinder "Bluebird" car twice over the ocean course to surpass by 8,235 miles an hour his former record of 245.733 established in the same car here last year.

This report gives further evidence of the suspected crop failure over large Russian areas last season and explains in large measure why south Russian wheat shipments have fallen to such low levels in the past few months.

### Victims Of War

**Rt. Hon. Arthur Henderson Makes Appeal On Behalf Of Children Of The World**

Geneva, Switzerland.—Rt. Hon. Arthur Henderson, president of the world disarmament conference, addressed an eloquent appeal to the assembled delegates in behalf of the children of the world, who, he said, are always the victims of war.

President Henderson's address marked the closing of general discussions at the conference. It held a note of hopefulness.

Many millions of children were sacrificed behind the lines in the Great War, he said, to tuberculosis, rickets and other diseases which ruthlessly destroyed a rising generation.

### Found Flight Difficult

**Aviators Take Six Weeks For Trans-Canada Trip**

Victoria, B.C.—Battling fog and fog for practically the entire six weeks consumed for the trip, and dogged by ill luck in the form of three minor crashes, W. H. Cross, Victoria owner, and Harry Grubstrom, Montreal, aviator, landed here to complete their trans-Canada flight from Montreal to Victoria.

"We did not have one clear day all the way across Canada," said Cross, describing the difficulties of long winter flying.

### SIR MALCOLM SETS UP A NEW SPEED RECORD

Daytona Beach, Fla.—Sir Malcolm Campbell, British speed king, wrote another thrilling chapter to his years of racing history by hanging up a new world's automobile speed record of 253.96 miles an hour over a mile route.

The 45-year-old driver who has been blazing new records and marks down the "roaring road" for a quarter of a century, drove his 12-cylinder "Bluebird" car twice over the ocean course to surpass by 8,235 miles an hour his former record of 245.733 established in the same car here last year.

On his first run, made southward over the beach, Sir Malcolm attained the speed of 267.459 miles an hour. Upon reaching the south end of the course, he immediately turned his bullet-nosed machine around and shot back northward over the beach at a speed of 241.773.

He covered the mile on his first run in 13.46 seconds and flashed across that distance on his second trial in 14.89 seconds for an average time of 14.17 seconds for both runs.

In all, Sir Malcolm set a new record over the mile and of his old record.

On his return Sir Malcolm also established new world speed records over one and five kilometre routes, but the announcement was not made public by officials until after they had checked their calculations.

Sir Malcolm's new record for the kilometre, which is approximately 2,000 feet less than a mile, was 251.340 miles an hour, compared with his former record for that distance of 246.086. His new record for five kilometres was 241.569 miles an hour as compared with his old record of 216.045.

### Improvement In Wheat Situation Is Predicted

**Statistical Experts Believe Canada Will Again Sell To Europe**

Ottawa, Ont.—Cables from Italy, Germany and Russia brought encouraging news from a Canadian standpoint in regard to the wheat situation. Italy is allowing its millers to use a larger percentage of foreign wheat beginning March 1. Germany is soon to be a buyer of wheat again. Meanwhile, from Russia come word of shortages for seedling purposes in the Volga, Siberia, and Kazakhstan area.

Trade despatch from Berlin predicting Germany will soon be buying wheat, is corroborated in letters which Hon. H. H. Stevens, Minister of Trade and Commerce, has received. Statistical experts of the department also expressed the opinion that very soon Spain would lift the barriers against foreign wheat as her domestic wheat supply becomes exhausted. France has been relaxing her restrictions until now the millers can mix 20 per cent. of foreign wheat and this may be increased.

Statistical experts here take the view that very soon Italy, France, Spain and Germany will all be buying wheat. This, it is suggested, should help Canada materially. The Dominion has approximately 185,000,000 bushels of wheat for export.

### Murderous Attack

**Blaine Lake School Teacher Is Seriously Wounded By Gunner**

Saskatoon, Sask.—The spotlight of notoriety was again turned on Blaine Lake, Doukhobor settlement in northern Saskatchewan and the scene of several incendiary school fires during the past few months, as word was received of a murderous attempt on the life of Miss Olga Wasley, 22-year-old school teacher, of Moose Jaw, as she lay in her bed in a little schoolhouse about six miles from Blaine Lake. Miss Wasley was the target of two shots from an unknown gunman, who smashed the window and used a shotgun in his efforts to kill the young teacher.

Word of the shooting was almost immediately followed by the arrest of Pete Dowlenko, 18, son of a Doukhobor farmer, living one mile from the school.

### Spruce Grove News.

At the Spruce Grove M.D. elections Councillor Latimer was re-elected in Div. 1; Councillor T. Wudel defeated Herman Loeblich in Div. 3; and Councillor S. C. Hagen was re-elected over Mr W. E. Bristol in Div. 5 by about 35 votes.

Spruce Grove Municipality Councillors will hold their inaugural meeting on Monday March 14, when a Reeve for the ensuing year will be elected.

Mr E. Pinchbeck, of Spruce Grove, left on Tuesday for Regina.

Several representatives from the Grove United church attended the Combined conference in Stony Plain Monday afternoon.

Farmers hereabouts were highly pleased with Monday's snow storm, as it has revived the sleighing.

Attention is called to the Elephant Brand Fertilizer advertisement on page one. A lecture on this will be given at Stony Plain the afternoon of Sat. March 12th, and at Winterburn Hall the evening of the same day.

If others failed to satisfy you. See M. Meeklenburg at the Royal Hotel, Stony Plain, Friday March 4.

### With the Curlers.

The recent mild spell put a temporary stop to the competition which was then in progress at the local curling rink. As the rinks now stand, it appears that the rink skippered by George Oppertshauser was in the lead, having 6 wins out of 7 games; J. McCulla's rink 2d, with 5 wins out of 7 games; H. Oppertshauser's rink is probably third.

### Oldtimers Returning.

Word has been received by their children here that Mr and Mrs H. Schindler, late of Ovensmouth, Calif., will be back to "Good Old Stony Plain" on April 27.

The worthy couple left here two years ago on a prolonged visit with their sons in California, on account of Mrs Schindler's health. Despite the wonderful climate and the good times had there, Mr Schindler claims "there is no place like home."

### You Can't Beat the Police!

The Police have received instructions to take proceedings against all car and truck owners who have not taken out their 1932 licenses. The drivers of cars with dirty plates and trucks with broken mirrors are due for a nasty jar, as a close check-up is about to be made.

### Sick Hen Commits Suicide

On entering the chicken house one morning last week Mr Abner Jackson of Buford district, discovered a hen which had shown signs of despondency for a few days previous, hanging by its neck to a large spike. Apparently the hen missed her step while trying to get up on the roof and was accidentally hanged, but Abner insists it was a clear case of suicide and did not require a coroner's inquest.

### Church Services.

German Lutheran services will be held in Stony Plain next Sunday at 2:30 p.m.

United Church service every Sunday Evg. at 7:30.

Sunday, March 20, there will be Lutheran services at St Matthew Schoolhouse at 7:30 p.m., by Rev. H. Kuring.

### Gov't Gets \$5,000,000 Loan

Rushed thru all stages in one hour, an Act authorizing the Brownlee Government to borrow five million dollars for current requirements was passed by the Legislature on the 24th.

The flotation was at once put on the market, and was handled by the strong financial group of chartered banks and bond houses which have so successfully undertaken financing for Dominion Gov't and Provinces of New Brunswick, Ontario and B.C. The loan is for a term of 15 years, on a 6 1/2 p.c. interest basis. The loan was oversubscribed the first day.

### Sleep on Right Side; Best for Your Heart.

If you toss in bed all night and can not sleep on the right side, try simple glycerin, saline, etc. (Adlerika). Just ONE dose relieves stomach GAS pressure on heart so you sleep sound all night. Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisons you never knew where there. Relieves constipation in 1 hour! Let Adlerika cleanse your stomach and bowels and see how good you feel! J. F. CLARKE, Druggist.

### Stony Plain and District

Mr H. Dodge, secretary of Inga Municipality, and his family are now ensconced in the Oppertshauser cottage on 2d St.

Mr and Mrs E. H. Pidgeon are said to be leaving Stony Plain to reside at Wabamun.

Mr and Mrs Val Pailer of Brookdale District spent the week end with friends in this district.

Antoinee Zucht will hold a sale of stock and goods at the Zucht livery barn Saturday afternoon.

Mrs C. Lory, who had been visiting with her parents at Wembley, returned yesterday to Stony.

Members of the Walther League are preparing to put on their play "Civil Service" early in April. Watch for the date.

Saturday next, March 5th, the U.F.A. Local will hold a meeting in their hall, at 3 p.m. to arrange for visit by Premier Browlee and D. MacLeod, M.L.A."

EGGS WANTED at the Royal Cafe.

Do you know that the high bridge in glasses is the latest style. See M. Meeklenburg, who will be at the Royal Hotel, in Stony Plain, on Friday March 4.

### United Church Notes.

On Sunday last splendid services were held at three points. The Pastor spoke from Habakkuk 2:1: "I will stand upon my watch; I will set me upon the tower, and I will watch to see what he (God) will say unto me."

The Pastor regrets his inability to visit all the sick, immediately, both in homes and in hospital.

The combined meeting of the Boards of the four congregations comprising the Stony Plain charge met on Monday last. Splendid interest was manifest. After singing the hymn "Tell Me the Old, Old Story" and reading of Eph. 4, 11, and prayer, the meeting opened for business. The finances were discussed and plans made for the future.

At the close, Rev Sander stated that having served four years here, he was quite prepared to vacate the position and forthwith tendered his resignation. Upon motion of two of the members the resignation was accepted "with regret." This will take effect on June 30.

Plans are in preparation for several large rural Gospel rallies, with special help from Edmonton in April and May.

Why go elsewhere, when you can get the very best, latest styles in glasses for only \$10? See M. Meeklenburg at Royal Hotel, Stony Plain, Fri. Mar. 4. Charges moderate.

### An Address in Sight.

Mr Geo Herbert, secretary of Stony Plain U. F. A. Local, is in receipt of a communication from Donald MacLeod, M. L. A., intimating his willingness to come to this part of the constituency and deliver an address, particularizing "the Community hall north of Stony Plain."

Mr MacLeod suggests the possibility of meeting the Premier, Hon J E Brownlee, to accompany him to this meeting when held.

### Blueberry Farmer Has No Rd.

(Hold over from last week)

A Blueberry farmer voiced the complaint at the recent Ioga meeting that, altho he had paid his taxes regularly since coming to the district, he had, as yet, no direct road to town; that, being only six miles from town, as the crow flies, his circuitous route to Stony Plain, in the summer time, means a nine mile trip; in winter he uses his neighbors' land and comes in by trail; he is prohibited the use of the Highway, as the gravel road is usurped by motor trucks, autos and other gasoline go devils traveling forty m.p.h.

### Sun Letter Box.

The Editor is not responsible for opinions expressed by the correspondents.

Editor Sun—I beg a few lines of your valuable space to warn fellow farmers. Take notice, farmers that have a certificate under the Debt Adjustment Act are requested to strictly obey orders given by the Act. The Act is here to protect them, therefore almonies must be paid thru the Debt Adj. Act only. This warning may save a lot of trouble, for some farmers at Vegreville had to pay quite heavy for side kicking.

EDITOR.

### Brightbank News

The U.F.A. whist drive and dance held at Lucknow school house was well patronised; all surrounding districts were well represented. The prize winners are: Men's first, H. Schneider, meerschaum pipe; Ladies' 1st, Mrs Jas. Eatock, Irish linen table set; Consolation prize winners, men, Mr E. Moldenhauer; ladies, Miss G. Summerfield.

Quite number from this district attended the whist drive and dance at Hansen's Corners the night of Feb 26. Hansen Corners will shortly be the scene of another popular sporting event.

Mr A McDonald has the contract for hauling 54,000 ft. of lumber from the Karl Groskopf mill for Louie Lent, at Duffield, who intends putting up a complete set of farm buildings this coming summer.

The Manhardt family, who have been occupying the G. Truax farm for the past year, are leaving soon for Edson, where Mr Manhardt will be manager on one of the large farms of that district.

The Scotsmen of this district are getting their kilts in repair for the annual Easter parade, which Col Jim will be at the head of.

### —Heard at Bright Bank—

City Visitor—Say, Boss, is that you hired man?

Farmer—That ain't no hired man; that's the Vice-president in charge of the cows.

### Birthday Party

A party of his young friends gave Mr Walter Oppertshauser a surprise reception on last Friday night, at the home of his parents, to celebrate the anniversary of his natal day. Cards and games helped pass a very pleasant evening. Walt was the recipient, from his friends, of numerous mementoes of the occasion. A dainty lunch was served before the close of the proceedings.

The winners at cards were—

Ladies 1st, Louise Oppertshauser; men 1st, Ed Enders. Consolation

Freida Strauss, Ph. Enders.

Among those present were—

The Misses Lydia Ulmer, Helen

Wm Miller, Bill Miller of Saskatoon,

Phil and Ed Enders, Otto

Wudel Jr., Oscar Oppertshauser,

Chas. Wudel.

### Car Licenses Up; Road Grants Cut.

Up went the motor license fees; so now down come the grants for roads of the province, as a result of the cutting of the 1932 main highway construction program, in the Legislature last week, to one seventh of the 1931 figure and reduction of maintenance figures by \$200,000 from last year's total.

These latter comprise two of the most drastic slashes provided in the Provincial government's economy plan, as submitted to the Legislature. No provision is made for the construction of secondary roads this year, while amounts for maintenance are cut in every possible direction.

### SERVICE GARAGE, Stony Plain.

New Chevrolet  
Six Owners  
Know What a  
Difference Six  
Cylinders  
Make!

SO many motorists have discovered the difference six cylinders make that today the Chevrolet Six leads all other automobiles in sales.

Six cylinders are better in every way. For example, Chevrolet's six-cylinder motor "picks-up" in gear quickly and without vibration. You get away ahead of the traffic and you do not have to shift gears so often. Secondly, you can drive as fast and as far as you like without any sense of strain or fatigue. For six-cylinder travel is smooth, quiet and restful at every speed.

Then, too, Chevrolet smoothness—inherent in six-cylinder design and Chevrolet's method of insulating engine from chassis by thick rubber cushions. It protects against the wear-and-tear of constant vibration as long as you drive your Chevrolet.

In addition to these great advantages, Chevrolet offers you Free Wheeling with safe, silent Syncro-Mesh gear shifting. It gives you 60-horsepower performance with lowest operating costs of any full-size car, regardless of the number of cylinders. And Chevrolet provides Bodies by Fisher — smarter, roomier and more lastingly quiet.

Drive a Chevrolet Six. You will find one pleasure and advantage after another to emphasize the fact: It's Wise to Choose a Chevrolet Six!

Produced in Canada
